

**TO WHOM IT MY CONCERN**

Bamberg, 08.04.2015

***Recommendation letter for Pharmacenter Ltd. in Budapest, Hungary***

I have been asked to comment on the capability and performance of Pharmacenter Ltd, which I will do with great pleasure.

Pharmacenter Hungary Ltd, Budapest, is a young, well connected, fast moving specialist distributor company working in the area of oncology, urology and orphan drugs.

As export coordinator of Dr. Pfleger I partnered with Pharmacenter in order to develop our commercial presence in Hungary. During this period Pharmacenter has established and developed our business for our urology product in Hungary.

I know Pharmacenter since the conclusion of our distribution contract in the year 2009 as a reliable business partner. Starting with the successful registration of the product they built-up the marketing and sales channels for our product leading into a nicely growing sales business and they are able to establish a successful pharmaceutical marketing, sales and distribution business in Hungary.

Pharmacenter Hungary Ltd is considered as a valuable partner in building up urology marketing & sales channels and doing the successful commercialization of medical products related to these fields.

I can recommend the Pharmacenter team from my personnel experience to other companies and investor with serious interest in expanding their pharmaceutical business activities.
